

Dr Chris Jenner

Consultant in Pain Medicine

Dr Chris Jenner is a Consultant in Pain Medicine at Charing Cross Hospital and has been a medicolegal expert witness since 2006. He provides reports for both medical negligence and personal injury claims.

His particular areas of expertise include:

- Neuropathic pain
- Chronic and chronic widespread pain
- Chronic pain syndromes
- Complex Regional Pain Syndrome
- Fibromyalgia
- Multi-disciplinary pain management
- Phantom limb pain
- Post Mastectomy Pain Syndrome

Medicolegal Partners have an experienced team skilled in all aspects of the administration involved in instructions to our various expert medical witnesses. This leaves experts free to utilise their precious time to focus on giving you and your client their medical and medico legal expert advice and support. You, or an agency working with you, can pick up the phone and speak to us any time.

"In his area, Dr Jenner is the "go to" expert which the firm uses, and in many cases, he has been the difference between the Plaintiff winning or losing and/or the Plaintiff recovering the damages that they deserve. Suffice it to say that I can highly recommend him."
