

Dr Rishi Khanna

Consultant in Pain Medicine

Dr Rishi Khanna is a Consultant in Pain Anaesthesia and Pain Management. He specialises in chronic back and neck pain conditions, including injections and medical management of spinal pain, sciatica, spinal stenosis, nerve pain and spinal cord stimulation. His other clinical interests include:

- Post surgical/traumatic pain
- Chronic primary pain
- Visceral pain conditions
- Sciatica
- Fibromyalgia
- Ehlers Danlos Syndrome
- Knee or hip arthritis
- Nerve pain
- Chronic abdominal and pelvic pain conditions

Medicolegal Partners have an experienced team skilled in all aspects of the administration involved in instructions to our various expert medical witnesses. This leaves experts free to utilise their precious time to focus on giving you and your client their medical and medico legal expert advice and support. You, or an agency working with you, can pick up the phone and speak to us any time.

Dr Khanna is able to opine on quantum, causation and prognosis for conditions including chronic pain after surgery and the medical management of pain following a personal injury

Consultations available in:

- Leeds
- Bingley
- Birmingham
- Manchester

- Regular clinical appointments available
- Clear, reliable and robust reports

- Expert Witness training completed
